NURSING SCHOOL SURVIVAL GUIDE

Charity Ralphs

Salt Lake Community College

Nursing school challenges you mentally, physically, and emotionally. More times than not you may feel inadequate or behind, but this is a lie. The best thing you can do for yourself is believe in yourself. Never give up on you! When days seem never-ending, challenging, or impossible remind yourself of your why. Remind yourself you are capable, strong, and entitled to share your talent of being compassionate, caring, and resilient.

THE NSNA 72ND ANNUAL CONVENTION

THE NSNA 72ND ANNUAL CONVENTION IN ORLANDO, FL.

This past week, some of our board members participated in an enriching journey at the NSNA 72nd Annual Convention hosted at the magical Disney's Coronado Springs Resort in Lake Buena Vista, Florida!

Participants had the opportunity to engage in nursing-focused sessions, spanning invaluable advice for new graduates, certifications, and NCLEX preparation. Moreover, our members had the extraordinary opportunity to connect with fellow nurses, employers, renowned graduate programs, and visionary leaders from across the nation.

Each day unfolded with motivational speeches and boundless opportunities. From inspiring discussions led by professionals in the field to the beautiful views that Florida has to offer it was overall a great experience.

We extend our gratitude to all who played a role in orchestrating this event and to each participant who contributed to the collective experience!
